

Business Insurance for the Engineer

The ACEC Business Insurance Trust (BIT) is the only commercial insurance program endorsed by the American Council of Engineering Companies (ACEC). Member firms of either ACEC National or the State Associations receive exclusive access to the program and benefits which have been guided by fellow Engineers who are trustees of the BIT and business owners. Some of these Benefits include:

MEMBER BENEFITS OF THE BIT

- ▶ **Enhanced Coverage:** BIT Member firms receive a policy tailored for Engineering companies.
- ▶ **Deductible Assistance:** Any firm in the BIT program may request reimbursement of their deductible up to \$1,000 for property and automobile losses, each time your firm has a claim.
- ▶ **Coalition Program:** The BIT will pay, on your behalf, \$150 per year toward ACEC Coalition dues for the Small Firm Council, CASE, COPS, CAMEE or the Land Development Coalition.
- ▶ **The BIT Provides ACEC and State Member Royalty Support:** The BIT shares part of the royalty funds received from the insurer with member firms, ACEC National, and State organizations. The success of the program and the low claims activity benefits our member organizations.

COVERAGES AVAILABLE IN THE ACEC BIT PROGRAM:

- ▶ General Liability
- ▶ Property
- ▶ Commercial Auto
- ▶ Workers Compensation
- ▶ Umbrella Liability

DEALEY RENTON ALSO HAS YOU COVERED FOR:

- ▶ Professional Liability
- ▶ Executive Risk
- ▶ Cyber Risk
- ▶ Employment Practices Liability (EPL)

“The BIT royalties have been a great benefit to our members and help our bottom line, we look forward to more!”

- Brad Diede, Executive Director, ACEC-CA

Dealey, Renton & Associates (DRA) is the agent representative in California, Oregon, and Washington for the ACEC BIT. As a broker focused on arranging insurance for design professionals for over 60 years, DRA is responsible for accessing the BIT on behalf of the engineering firm and providing for any servicing needs.
