Premium collections, reporting of hours and wages and preparation for benefits to begin January 1, 2020 have employers of all sizes (sole proprietors to international large employers) seeking more information and there continues to be questions.

Please join us to hear Unum present an overview of the law as well as an update on implications and considerations for employers.

Coba’s Capitol Comments

A nice, slower-paced transition week as the second chamber decides on schedules for the bills that came were passed from the chamber of origin. Passage from both chambers is not guaranteed and committee chairs have the authority to decide which bills in their committee will be heard and moved forward. While strong democratic majorities exist in both chambers with 38-22 in the House and 18-12 in the Senate, the Senate will play a moderating role with enough swing votes to kill or amend House passed legislation.

HB 2673-A, the QBS bill, will have a hearing and possible work session Thursday, April 18 in the Senate Business and General Government Committee. The bill is expected to move without amendment.

Amendments to HB 2019 to raise $2 billion in new revenue for K-12 education are pasted below. Companies should review for impacts on their business. Hearing are being held but the Joint Committee on Student Success is expected to adopt these, or another set of amendments soon.
