PRESENTERS

LAST CHANCE!

[Project Risk Analysis for Project Managers](#) – April 28

Are you able to answer the following questions for each of your firm's projects?

- What are your project risks?
- Who is responsible for those risks?
- What are the warning indicators?
- What is the likelihood that an event will occur?
- What is the potential magnitude for each risk?
- What are the key assumptions that drive the risk event?
- What is the best strategy for managing the risk?

This program is designed to present a process to help firms recognize, document, and mitigate project risk in eight steps. The purpose of risk analysis is to identify the cause, effect, and magnitude of the

perceived risk and to develop and ultimately mitigate the uncertainty of the risk without any significant impact on the project objectives.

Who is this program for?

- Firms that want to train their employees on the importance and use of project risk management
- Firms that want tools and templates to develop their risk management process

Coba’s Capitol Comments

The halfway mark of the session is a slight breather for all involved as this week has a limited slate of hearings. The Ways and Means Committee is holding a series of online hearings across the state with each congressional district getting their time to shine. Participants have two minutes to share their thoughts and priorities on where the money should be spent with a clock counting down the seconds. So far, the committee has been through Portland, eastern Oregon and Medford and tonight in District 3 which includes Multnomah and Clackamas Counties.

The full schedule and sign-up information is here:
[Ways and Means Joint 2021 Regular Session - Oregon Legislative Information System \(oregonlegislature.gov\)](http://www.oregonlegislature.gov)

WHEN
1:30 to 3:00 P.M.
