From Doer to Leader: Lessons Learned

Our leadership series culminates with a lively and candid session, featuring stories and insights from senior leaders on how to transition from doer to leader.

This facilitated session gives participants a chance to ask industry leaders questions concerning industry, practices and management. Includes a review of key take-aways from past classes, and group problem solving and sharing strategies.

2019 legislative session will consider Oregon's next steps

Governor Kate Brown and **Speaker Tina Kotek** have both committed to major policy on carbon reduction in the 2019 legislative session. **Kristen Sheeran** was recently hired to serve as Oregon's first Carbon Policy Advisor to the Governor. Her office will lead the preparation of this legislation and Kristen will share with ACEC members early goals and concerns of the project.

ACEC members can **learn the opportunities and pitfalls of this potentially major policy change**. While the goals of carbon reduction are economy-wide, **ACEC members may be most interested in the potential significant increase in funds to the highway fund**. Kristen is seeking engaged stakeholders to work on the issue. She will take questions after her presentation. In addition to this new policy position, the legislature will soon appoint a joint interim committee on the issue as well.

ABOUT THE SPEAKER

Kristen Sheeran, PhD

Carbon Policy Advisor to Governor Kate Brown

An economist by training, Dr. Sheeran has researched and practiced in the field of clean energy and climate policy for more than fifteen years. Her career spans leadership positions in the private, public, and non-profit sectors. She has published numerous articles on carbon policy and co-authored a book on environmental markets.

ACEC Oregon members lobbied Capitol Hill as part of Legislative Summit activities during the ACEC National Convention, April 15-18, in Washington, DC. The group met with each of Oregon's members of Congress and southwest Washington's Jaime Herrera Beutler.

Issues discussed included:

- Development and passage of major infrastructure legislation this year.
- Emphasis on passing balanced legislation which incentivizes private investment and P3s (where appropriate).
- Regulatory reforms to streamline infrastructure delivery.
