- Astoria 11th Street Combined Sewer Overflow Separation for City of Astoria

URS (now AECOM)

- OR 62: I-5 to Dutton Road FEIS/ROD for Oregon Department of Transportation

■ **Engineering Excellence** is an annual design competition that recognizes engineering achievements which demonstrate the highest degree of merit and ingenuity.

A panel of judges selected the best engineering projects of the year based on the following criteria: uniqueness or innovative applications of new or existing techniques; future value to the engineering profession and perception by the public; social, economic and sustainable development considerations; complexity; and successful fulfillment of client/owner needs.

These projects attest to the continuing impact ACEC Oregon firms have on the quality of life in Oregon, southwest Washington and throughout the world. Join us in honoring the fine work performed by Oregon and southwest Washington engineering firms.

For more information please visit www.acecOregon.org.
