exhibitor? [Read more here.](#)

## ACEC Oregon + Washington Fall Conference

### RESERVE YOUR ROOM TODAY!

Call 866-826-9422 and mention **ACEC** when making your reservation. **Our room block will be held until August 8, 2016. After that time we cannot guarantee a room at the Marcus Whitman Hotel. Room rates: \$139 - \$199 per night (plus 10.9% taxes and fees).**

### Conference Highlights

- “Building a Better Brain: Improving Decision Making” with Brad Hermanson
- Client presentations from Port of Portland, Port of Walla Walla, Army Corps of Engineers, and more
- Roundtable discussions moderated by industry experts on topics including healthcare, HR, insurance, legal, and more
- Networking with key industry professionals
- Social events including a Winemaker’s Dinner, optional golf and wine tasting tour, plus Walla Walla’s Wheelin’ Weekend

[Click here for preliminary agenda.](#)

**REGISTER NOW**

**TOMORROW!**  
THURS  
**JULY 28**

[Click here to see who's already registered.](#)

WHEN  
10:30 A.M. to 12:00 NOON  
(includes 30 mins. for Q&A)

WHERE  
Washington State Department  
of Transportation  
11018 NE 51<sup>st</sup> Circle  
Vancouver, WA 98682

**No charge to attend!**

Please click on the [registration link](#) to RSVP, either "Member Registration" or "Public Registration" so we know how many to expect.

Good for one (1) continuing professional development credit.

THANK YOU SPONSOR!

**ACEC / SW WA Public Agency Liaison Committee meeting**

Join representatives from various southwest Washington public agencies and ACEC members and guests for their quarterly meeting.

PRESENTATION

**Landslide Mitigation using Anchored Shear Piles**

Tom Westover, PE, Associate Engineer, Cornforth Consultants, Inc.

Multnomah County, Oregon is replacing the Sellwood Bridge within its existing footprint. The original bridge was built in 1925 at the site of an ancient landslide located along the west bank of the Willamette River. The landslide, approximately 800 feet long, 500 feet wide, and 50 feet deep, has moved in excess of three feet toward the river channel during the bridge's 90-year history, which caused severe buckling and cracking of the old bridge deck and abutment piers. The landslide movement was mitigated using an anchored shear pile (ASP) system. Structural mitigation of landslides is increasingly necessary where existing geologic hazards intersect with displacement-sensitive infrastructure. Anchored shear piles (ASP) can be used to develop full-depth restraint of large landslide masses with limited post-construction deformation. This presentation highlights a case study for landslide mitigation through the use of high-capacity ground anchors integral with cast-in-place concrete shear piles. Construction of an ASP system can provide full-depth resisting force to a landslide, without the risk and right-of-way impacts of large open-cut excavations.

PUBLIC AGENCY UPDATE

The City of Kelso's Procedures for Procurement of Engineering Services

Tim Shell, P.E., Senior Engineer, City of Kelso

---

THURS  
**AUGUST 11**

[Click here to see who's already registered.](#)

WHEN  
5:00 to 7:00 P.M.

WHERE  
Skyline Tavern  
8031 NW Skyline Road  
Portland, OR 97229

**8<sup>th</sup> Annual LDG BBQ!**

(Leadership Development Group)

Catch up with colleagues in the A/E/C industry while networking and noshing.

TO REGISTER ([CLICK HERE](#))

No cost to attend.

RSVP by Monday, August 8.

---

WHAT IS THE LDG and WHY SHOULD I PARTICIPATE?

The goal of the LDG (Leadership Development Group\*) is to create opportunities for 'Future Leaders' to engage in ACEC and build a foundation for future leadership within individual companies.

\*All are welcome to participate, regardless of years of experience or position in firm!

---

THANK YOU SPONSORS!
