THANK YOU SPONSORS!

Coba’s Capitol Comments

June begins a glide path toward finding final resolution on a few major issues still in front of the legislature.

Yesterday the Joint Tax Expenditure Committee reviewed an amendment of technical fixes in HB 2164 that will be used to adjust HB 3427, the business activity tax passed last month to fund schools with an additional $2 billion
beginning in 2021. The 19 page -1 amendment to HB 2164 will replace the original HB 2164. Review the amendment here: https://olis.leg.state.or.us/liz/2019R1/Downloads/CommitteeMeetingDocument/202961

**HB 2020-A**, the carbon bill, will have a public hearing and work session tonight at 5:00 P.M. in the Joint Committee of Ways and Means Subcommittee on Natural Resources in the Capitol. Staff is recommending the adoption of the -101 amendments that will clarify how to proceed after the Supreme Court rules on certain provisions of the main bill. See the -101 amendments here: https://olis.leg.state.or.us/liz/2019R1/Downloads/ProposedAmendment/16603

The full **HB 2020** background and bill text is here: https://olis.leg.state.or.us/liz/2019R1/Measures/Overview/HB2020

Change is in the air at ODOT as **Director Matt Garrett** will leave his post on June 28 and an interim director will be named to fill the void until the new Director comes on board. **Tammy Baney** will step down as Chair of the Oregon Transportation Commission after the August meeting and will then be replaced by a Governor’s appointed chair and vice-chair for the September meeting. **Sharon Smith** from the Bend area has been named to replace Baney and is the ninth OTC member in the past five years. This unprecedented turnover comes as the OTC was given new responsibilities in project oversight and ODOT management in HB 2017. The longest serving member of the OTC has only been on the Commission for the past 1.5 years.

**State of Oregon recruiting for OSBEELS Director**

**Job Description:**

*Our mission...*

The mission of the Oregon State Board of Examiners for Engineering and Land Surveying (OSBEELS) is to regulate the practices of engineering, land surveying, photogrammetric mapping, and water right examination in the State as they relate to the welfare of the public in safeguarding life, health and property.

**This mission is accomplished by:**

Assuring that only competent individuals are granted licenses to practice engineering, land surveying, and photogrammetric mapping, that only registered individuals are offering and/or providing engineering, land surveying or photogrammetric mapping services, or water right examination and that registered individuals maintain high standards of practice and compliance with applicable statutes, rules, and regulations.

**What we are looking for:**

The Oregon State Board of Examiners for Engineering and Land Surveying is looking for people with a strong desire to lead the semi-independent state agency responsible for regulating the practices of engineering, land surveying, photogrammetric mapping, and water right examination in the State to protect the welfare of the public and safeguard life, health, and property. The mission is accomplished by assuring only competent individuals are granted licenses to practice engineering, land surveying, and photogrammetric mapping services, or
Introducing “Engineering Influence,” ACEC’s new Podcast

ACEC National recently launched its new podcast series, “Engineering Influence,” which can be found on iTunes and on the Podbean podcasting network.

Hosted by ACEC’s Washington, DC based staff, Engineering Influence features interviews and analysis of current affairs affecting the engineering industry, economic and business trends, and interviews with thought leaders and newsmakers.

You’re invited to subscribe to the podcast, which is updated regularly with new episodes. If you know someone who would be a good guest for Engineering Influence, please contact Jeff Urbanchuk, ACEC’s Director of Strategic Communications at jurbanchuk@acec.org.
