No on I-976 – Help defeat Initiative 976 this November

Please help us in joining ACEC Washington and others to defeat I-976, a (Washington) state initiative to roll back motor vehicle taxes and fees.

ACEC Oregon urges your support and is contributing to this effort.

ACEC Washington has taken the position strongly supporting the “No on I-976” campaign and has already contributed $100K to it, and ACEC Oregon is joining the effort. If this initiative were to pass in November, it would mean billions of dollars in lost revenues directly for public projects across the state of Washington. However, this will would also have a ripple effect through private development. Things are moving forward, but the campaign can still use your time, your endorsement, and your kind donations. We strongly ask that you consider each of these opportunities. Please help us protect these critical investments in Washington’s infrastructure and economic future.
