Correct bad habits and reinforce good habits

Successful Technical Writing – October 25

Professor Jan Spyridakis returns!

You will learn the critical elements of technical writing:

- Audience and purpose
- Organizational strategies
- Document design principles (including effective use of graphics)
- Writing and revision methods

WHO SHOULD ATTEND

Engineers, scientists, and technical writers and editors who spend much of their time writing, revising, and editing documents will find this workshop useful in honing their technical communication skills.

10 seats remaining! CLASS SIZE LIMITED TO 20!

Managing Time & Relationships – November 7

Transitioning from doer to leader means you start to shift your focus on what you do during the day and how you interact with the people around you to increase your sphere of influence.

In this class, you'll learn to:

- Set a vision for yourself as a leader
- Create an actionable plan to get there
- Plan and prioritize your day
- Manage e-mail and meetings to keep yourself focused
- Delegate more tasks with greater confidence
- Build equity and accountability with your team
- Understand how each interaction affects your progress as a leader

OBEC and DOWL Announce Merger

OBEC Consulting Engineers and DOWL have entered into a merger agreement. The move comes after more than a year of developing closer ties, and recognizing the advantages for the firms and their clients.

“This is a true Oregon success story,” said **Larry Fox**, President of OBEC. “We started as a bridge engineering firm more than 50 years ago. Since then we’ve evolved to help public agencies solve a wide range of challenges they face. This is an exciting step in bringing our expertise to a broader region.”

Hart Crowser Announces Promotions

Dan Trisler has been promoted to Principal of Hart Crowser. He is a Geotechnical Engineer who manages Hart Crowser’s Vancouver, Washington office and has 23 years of experience throughout Washington and Oregon, 8 of those with Hart Crowser. Trisler specializes in helping design public infrastructure projects such as roads, bridges, schools, and ports, and also works with private developers of commercial and industrial properties.

ACEC Oregon PAC

Promoting & Protecting
Oregon’s Engineering Industry

THANK YOU, ACEC Oregon PAC donors!

Thank you to the following firms that have contributed to the state PAC.

Donations received Sept. 6 thru Oct. 16, 2018 are from:

Northwest Engineering Service
Kittelson & Associates
Peterson Structural Engineers

Support state legislators that support ACEC!

One of the most direct ways to prepare for the 2019 session is to give financial support to legislators and candidates who share our vision for Oregon. ACEC Oregon PAC, our state level political action committee, is where we pool funds to support candidates and proven legislators. **These funds are a key ingredient to our continued success by helping to keep good legislators in office. All these funds stay in Oregon and are used in legislative races.**

The funds in the ACEC Oregon PAC are limited, valuable and specifically used to support ACEC Oregon issues. Our pledge is to follow a bi-partisan approach that allows us access and helps pave the way to success.

Currently more than 100 Oregonians are seeking election to key legislative seats and the Governor’s office. **Now is the time to help elect like-minded candidates who will support our goals.**

CONTRIBUTE ACCORDING TO THE FAIR SHARE FORMULA

The board of directors has made funding the ACEC Oregon PAC a priority and is asking each member firm to contribute at least \$20 per Oregon employee, with a suggested \$200 minimum, to the state PAC for our legislative efforts.
