We had several of our emerging leaders attend the ACEC Leadership Development program and the feedback I received was extremely positive. In particular, it helped them gain a broader perspective on the business aspects of consulting and we are already realizing the return on this investment in their leadership development.”

--Larry Fox, PE, COO, DOWL

May 5 - From Doer to Leader: Lessons Learned

May - Graduates recognized at annual business event

PAST PARTICIPANTS SAY

“The series helped me by providing insightful methods, processes, practices and ways of thinking to continue to develop as a leader. Additionally, learning personality types and how to build a successful team with a well-rounded balance of different personality types was very insightful. I also gained knowledge about the Oregon political landscape, lobbying, how to have a voice, and the state legislature.”

-- Craig Heimbucher, PE, Associate Engineer, Terraphase Engineering

“The ‘Enhancing Leadership Versatility and Personal Effectiveness’ session has helped me as I work with different team members. I have a new appreciation for different personalities and understand how they each can contribute to a positive project outcome.”
